

SOUMI PAUL

Node JS Developer

Node.js developer with 1.3 year experience . Skilled in building complex features and utilizing clean coding practices for high quality solutions. Strong communications skills .Currently expanding knowledge into frontend technologies . Seeking new opportunities to apply expertise and advance in Back-end and full-stack development.

Skills

- Javascript
- Node.js
- Express.js
- MongoDB
- React.js
- Basic Next.js
- Git , GitHub

Experience

January 16, 2023 - Present

Hih7 Webtech Pvt Ltd. Kolkata, West Bengal 700053

Node JS Developer

- As the role Node JS developer on a project, I have successfully built and implemented complex features , ensuring their functionality and quality through testing and debugging.
- Proficiently utilized MongoDB , Express.js , React.js , and Node.js for seamless application development.
- Applied React.js , React Router Dom for efficient front-end development.
- Utilized Git for version control , ensuring code integrity throughout development process.

Projects

Guardian Banking Solutions

Guardian Banking Solutions is a MERN stack project focused on revolutionizing the interaction between banks and clients. As a backend developer, I use Node.js, MongoDB, Express.js, and JavaScript. The project streamlines the application process, where clients submit information through dedicated operators. The intelligent matching algorithm pairs client applications with personalized quotes from various banks, reducing time and effort for approvals. This promotes transparency, simplifies the application process for clients, and offers a targeted approach for banks. Overall, Guardian Banking Solutions aims to optimize the banking experience, empower financial institutions, and create a more efficient financial ecosystem.

iRewardify Website

iRewardify is a MERN stack project, focusing on transforming the gifting experience. As a backend developer, I utilize Node.js, MongoDB, Express.js, and JavaScript.

Our GiftCard Ecommerce Website redefines gift-giving, offering a seamless platform to purchase digital and physical gift cards from popular brands. The user-friendly interface, personalized options, and secure transactions enhance the shopping experience. Dynamic features like themed designs and scheduled delivery add thoughtfulness to each gift. Merchants benefit from a robust backend, gaining insights into customer preferences and sales trends. The platform serves as a unique channel for businesses to showcase products through branded gift cards. iRewardify aims to revolutionize gifting, connecting individuals with the perfect present while supporting businesses in expanding their reach. Experience the joy of giving with convenience and style on our cutting-edge platform.
